ADHITHYA ROKHITH BHASKAR

Revenue Operations | Forecast Engines, Deal Desk, CRM/CPQ, GTM AI Agents

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

RevOps builder who ships the system, not just runs it. Built PriceKeel's CRM, CPQ, forecast and pipeline reviews and deal-approval guardrail engine from a blank canvas as founder. Built Sensata's Bleeders and Leakers pipeline (1,200 opportunities, $627M target) and recovered **$700K+ in margin in 2 quarters**. Architects GTM AI agents on Claude at Applied Materials today, not as a novelty but as core stack.

SKILLS

Revenue Operations: Forecast & Pipeline Reviews, Territory & Quota Modeling, Deal Desk, Quote Governance, Routing Logic, Salesforce, HubSpot, Pardot
Pricing & Monetization: Deal Approvals, Discount Governance, Pricing Guardrails, Margin Analysis
GTM Systems & AI: AI Agents (Claude) for Forecasting & Pipeline Briefings, Workflow Automation, Dashboard Design (Power BI, Tableau)
Analytics: SQL, Power BI, Tableau, Excel (Advanced), Cohort & Funnel Analysis

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Designed and shipped the **guardrail engine** from a blank canvas: reads live discount exceptions and recommends an explainable pricing rule learned from each company's own closed-won and closed-lost deals, the exact "design it, build it, own it" mandate this role runs on.
- Built the **CRM, CPQ configuration, forecast and pipeline reviews, and deal-approval process** end to end, with an audit trail Finance can trust.
- Running **pilots** with early B2B customers and raising the company's first fundraising round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Architect and ship **GTM AI agents built on Claude**, productionized to cut manual work out of recurring forecasting and reporting, the exact "AI in the loop" building this role treats as core, not a novelty.
- Build **forecasting models** across multiple product groups, partnering with Sales, Engineering and Accounts to turn field input into one view.
- Carry **P&L and revenue targets** while running the OKR cadence and weekly/quarterly business reviews.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Built the FY2026 **Bleeders and Leakers Power BI dashboard**: a self-serve executive view of 1,200 opportunities against a $627M target, with win rate, avg $/win and stage distribution by salesperson, the "CRO's operating system" dashboard discipline this role names directly.
- Recovered **$700K+ in margin in 2 quarters** by closing on competitive gaps and customer willingness to pay, raising distributor margins from 53% to 61%.
- Shaped **AP26 revenue models and multimillion-dollar customer quotes** with senior executives, keeping forecast inputs defensible under review.
- Owned **pricing guidelines and approval documentation**, running weekly and quarterly business reviews that kept the queue moving.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Equipped **50+ reps** with sales enablement (decks, case studies), lifting win rates 30% by fixing what reps needed at each deal stage, the "influence a tenured seller base by proving value first" discipline this role asks for.
- Ran **email and paid channel** launch campaigns generating +35% qualified leads routed into the same pipeline logic Sales operated on.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Automated the **WordPress and Pardot** lead flow for closed-loop attribution, cutting cost per lead 50%, and tied SEM performance to MQL quality and stage 1 opportunities.
- Approved the **budget forecasts** presented to leadership across multiple business units.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn 50%.
- Kept **enterprise case studies and sales materials** current, supporting a 20% improvement in sales team performance.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Ran **database audits** and built dashboards that improved data accessibility 30%.

PROJECTS

SwipeHire

- Shipped an **AI job-matching platform** zero-to-one (Python, OpenAI API, React), building the matching logic and funnel dashboard myself rather than directing a team that did, the exact "hands-on builder" test this role screens for.
- Owned the **GTM and analytics stack** (GA4, GTM, event tracking, funnel dashboards), running 8+ A/B tests that lifted activation 25%.
