Carried P&L and revenue targets for an 8-person team running 8 client accounts at Pixis, and recovered $700K+ in margin in 2 quarters at Sensata by turning a flagged opportunity into a negotiated outcome across a $627M pipeline. - **Carries P&L and revenue targets** while building forecasting and value-based pricing models across multiple product groups for a fast-growing semiconductor segment.

- **Runs the OKR cadence and leadership decks** behind weekly and quarterly business reviews, turning objectives into plans leadership can track.
