SUMMARY

Pricing strategist and founder who recovered **$700K+ in margin** in 2 quarters at Sensata and raised distributor margins from 53% to 61%. Moves between strategic pricing architecture and tactical, deal-by-deal execution: builds the ROI/TCO business cases behind every pricing call, most recently structuring a 150-facility market-entry question into a clear recommendation for Safran leadership, and runs PriceKeel's live discount-guardrail and audit-trail engine for B2B deal pricing. Automates repetitive pricing analysis with Claude AI agents. MS in Marketing Analytics with an Advanced Pricing Certification.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Built the **pricing architecture** behind PriceKeel, a decision-integrity layer for B2B SaaS deal pricing that turns a live discount exception into an explainable recommendation learned from each customer's own closed-won and closed-lost deals.
- Designed the **audit trail** that gives Finance defensible evidence for every pricing decision, and run the company's CRM/CPQ, forecast and pipeline reviews, and deal approvals end to end.
- **Running pilots** with early customers and raising the company's first round, modeling each new pricing rule's ROI and downstream complexity before it reaches a decision-maker.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Build **competitive, value-based pricing** for a fast-growing semiconductor hardware equipment market, forecasting demand inflection points so pricing and positioning move ahead of the market, not behind it.
- **Partner with Sales, Engineering and Accounts** to turn field and technical input into one forecasting and market-sizing model across multiple product groups, carrying P&L and revenue targets.
- Automated repetitive pricing analysis with **AI agents built on Claude**, cutting manual work so time goes to the hypothesis-test-recommend cycle behind an executive pricing decision.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Owned **global pricing strategy** for the Industrial BU (a multi-$100M business) across multiple product lines, building the ROI case behind every price move and carrying P&L and revenue targets.
- Recovered **$700K+ in margin in 2 quarters** running the Bleeders & Leakers program: turned competitive gaps and customer willingness-to-pay data into pricing hypotheses, then operationalized the fix.
- Built the FY2026 Bleeders & Leakers **Power BI dashboard**, ranking 1,200 pricing opportunities against a $627M target across 3 regions and 4 product families and surfacing $433M in margin gaps for leadership to prioritize.
- Defended **AP26 revenue models** and multimillion-dollar customer quotes directly to senior executives, translating the same pricing rationale for the sales reps who had to sell it.
- Raised distributor and channel-partner margins **from 53% to 61%**, driving +12% YoY revenue and +8% market share through price realignment benchmarked against 10+ competitors.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM pricing and channel strategy** for new sensing products across North America and Europe, driving $2M+ first-year revenue through cross-functional work with Sales and Engineering.
- Ran **30+ customer interviews** with OEMs and distributors to test willingness to pay and surface pricing friction before launch, feeding directly into packaging and channel-pricing strategy.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Directed **marketing budgets of $100K/month** across multiple business units, building the financial models and forecasts presented to the leadership team for approval.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** for an 8-client, $15K-$90K/month portfolio, cutting client churn **50%** through proactive account strategy and channel diversification.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C brands and lifted a B2B startup's revenue **25%** via catalog and SEO rebuilds.

PROJECTS

Safran Market Sizing & GTM (Simon Business School)

- Led a **5-consultant team** that structured an ambiguous market-entry question into a business case: TAM/SAM/SOM from 150+ facilities to a SAM of 28, competitive positioning against 10+ players, presented to Safran leadership.
