SUMMARY

Operator who turns **undefined, highest-stakes problems** into a working v1 and a number, then hands it off. Runs PriceKeel, a B2B SaaS pricing startup, from zero: the product, the pilots and the first fundraising round, while carrying P&L and revenue targets as Strategic Marketing III at Applied Materials, where repetitive analysis already runs AI-first on Claude agents. Turned an underperforming margin line into the Bleeders and Leakers program at Sensata, recovering $700K+ in margin in 2 quarters. Has hired and directed teams, built the operating layer of OKRs and weekly/quarterly reviews that make performance legible within a day, and cut client churn 50% by fixing account retention at the root. Thinks in margin, CAC and payback, not just activity.

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded PriceKeel from a blank page, a **decision-integrity layer** for B2B SaaS deal pricing, building the guardrail engine and audit trail that give Finance evidence to approve a deal.
- Owns the business **end to end**: set up the CRM, CPQ, forecast and pipeline reviews, and deal-approval process from zero, the same zero-to-one motion treated as an operating problem, not a strategy memo.
- Runs **pilots** with early customers and is **raising the company's first round**, carrying the fundraising narrative, the product and the numbers at the same time.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Converted a manual, repetitive analysis workflow into an **AI-first one** by building agents on Claude, the same manual-to-AI-first rebuild this kind of seat asks for across Ops, CS, Delivery and GTM.
- Partners across **Sales, Engineering and Accounts** to size the semiconductor market, turning scattered field input into one view leadership can act on.
- Carries **P&L and revenue targets** for the role and builds the competitive, value-based pricing and forecasting models that track the market's inflection points.
- Runs the **OKR cadence** behind weekly and quarterly business reviews, the operating layer that makes performance visible within a day of being asked.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Took over an **underperforming margin line** with no real owner and built the Bleeders and Leakers program from scratch: ranked 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines.
- Recovered **$700K+ in margin in 2 quarters** and lifted distributor and channel-partner margins from 53% to 61%, repricing the underlying logic so the fix held past the first cycle.
- Shaped **AP26 revenue models** and site-transition strategy directly with senior executives, writing the leadership decks and running the OKR reviews that kept the business aligned.
- Promoted from Product & Growth Marketing to **Pricing Lead in 10 months** after proving the margin program could run without daily oversight.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned the **cross-functional product roadmap** for sensor solutions across 3 regions, managing a 100+ feature backlog with Engineering in Agile.
- Delivered **$2M+ in first-year revenue** owning GTM for new sensing products across North America and Europe, from positioning through launch.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Hired and managed **marketing team members**, then built the plans and forecasts presented to the leadership team for budget approval.
- Owned **$100K/month in marketing budgets** across multiple business units, approved by the leadership team.
- Automated the **WordPress and Pardot lead flow**, cutting cost per lead 50% by replacing a manual handoff with a rules-based process.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Hired and managed an **8-person team running 8 client P&Ls** with per-client budgets of $15K-$90K/month, carrying full revenue targets.
- Cut **client churn 50%** by rebuilding account strategy and retention mechanics at the root, the same get-into-the-account, fix-it-at-the-root motion this kind of seat runs on enterprise accounts.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Bridged **regional, localization and analytics teams** as the main liaison, keeping cross-functional execution aligned across markets.
- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds.

PROJECTS

SwipeHire

- Built **an AI job-matching platform** zero-to-one: wrote the PRD, scoped the MVP, hired and managed the team that shipped it to 50+ early users.
- Ran **board decks and OKR reviews** (weekly and quarterly) while owning ICP, positioning and the GTM and analytics stack.

Safran Market Sizing & GTM (Simon Vision Consulting)

- Led **a 5-consultant team** sizing a market from 170 facilities to a SAM of 28, then presented pricing and market-entry recommendations to Safran leadership.
- Analyzed **150+ target facilities and 10+ competitors**, assessing pricing strategy and the financial feasibility of market entry.
