ADHITHYA ROKHITH BHASKAR

Pricing & Product Strategy | Founder, PriceKeel | Elasticity Modeling, Marketplace Pricing, Roadmap Ownership

San Francisco Bay Area, CA | +1-929-563-9974 | arokhith@gmail.com | LinkedIn | Portfolio

SUMMARY

Pricing lead and founder who recovered **$700K+ in margin** in 2 quarters at Sensata. Lifted distributor margins from 53% to 61% enforcing new rate-card discipline across a $627M opportunity base, the same deal-by-deal, portfolio-level pricing view a base-price roadmap has to take across ride types, regions and trip intents. Founder and CEO of PriceKeel, a decision-integrity layer for B2B SaaS deal pricing that sets explainable discount guardrails and audits every pricing exception for Finance. Strategic Marketing III at Applied Materials, automating repetitive pricing analysis with **Claude AI agents** while carrying P&L and revenue targets. MS in Marketing Analytics from Simon Business School.

SKILLS

Pricing & Marketplace Economics: Price Elasticity, Value-Based Pricing, Global Price Strategy, Margin Recovery, Channel/Distributor Pricing, Discount Governance, Deal Approvals, Competitive Benchmarking, Rebate & Contract Pricing

Experimentation & Analytics: SQL, Python (pandas, NumPy), R, Regression & Demand Forecasting, A/B & Multivariate Testing, Incrementality, Cohort & Funnel Analysis, Databricks, Power BI, Tableau

Product & Roadmap: Roadmapping, Backlog Management, PRD Writing, Prioritization (RICE/ICE), Jobs-to-be-Done, MVP Scoping

Leadership & Cross-Functional Operating: P&L and Revenue Targets, Budget Planning & Approval, Operating Cadence (OKRs, weekly/quarterly reviews), Cross-Functional Initiatives, Leadership & Board Decks, Negotiation

EXPERIENCE

Founder & CEO, PriceKeel May 2026 - Present

- Founded **PriceKeel**, a decision-integrity layer for B2B SaaS deal pricing that reads a live discount exception and recommends a guardrail, the same price-recommendation loop this role would run across hundreds of Lyft markets.
- Designed the guardrail engine's **explainable discount logic** learned from each company's own closed-won and closed-lost deals, the same impact-estimation discipline this role needs market managers to trust before they act on a price change.
- Set up and runs the company's **CRM and CPQ configuration**, forecast and pipeline reviews, and deal approvals, prioritizing inbound requests from early customers while running pilots and raising the company's first round.

Strategic Marketing III, Applied Materials Jun 2026 - Present

- Builds **competitive, value-based pricing** for a fast-growing semiconductor market, forecasting its inflection points so pricing keeps pace with demand, the same cost-to-price translation this role runs for every Lyft ride type.
- Partners with Sales and Engineering to size the **semiconductor market** into one shared view.
- Automates repetitive pricing analysis with **AI agents built on Claude**, carrying P&L and revenue targets for the role.

Pricing Lead, Sensata Technologies Jul 2025 - May 2026

- Recovered **$700K+ in margin** in 2 quarters leading the Bleeders and Leakers program, evaluating deal-by-deal structures against margin thresholds and competitive gaps, the same portfolio view this role takes jointly optimizing standard, alternative-mode and scheduled rides.
- Raised **distributor and channel-partner margins from 53% to 61%** in under 2 quarters by repricing parts sold through distribution, the same cost-to-price re-evaluation this role runs when ride-fulfillment costs change.
- Built the FY2026 Bleeders and Leakers **Power BI dashboard** tracking 1,200 pricing opportunities against a $627M target across 3 regions, 4 product families and 20 product lines, the same granularity choice this role makes by time, location and trip type.
- Flagged **line items where a price change could lift profitability more than 50%** in a BU-wide Power BI model, the same trust market managers need before a base-price change ships.
- Negotiated **multimillion-dollar customer quotes** and partnered with senior executives on AP26 revenue models, driving +12% YoY revenue and +8% market share through price realignment and competitive benchmarking across 10+ key players.

Product & Growth Marketing, Sensata Technologies Sep 2024 - Jun 2025

- Owned **GTM for new sensing products** across North America and Europe (positioning, pricing, channel, launch), driving $2M+ first-year revenue.
- Ran **30+ customer interviews** with OEMs and distributors to find pain points, the same direct-with-stakeholder research this role would run with the market managers who use Base Pricing's models daily.

Digital Marketing Manager, Plug Power Oct 2022 - Jul 2023

- Presented **marketing budgets of $100K/month** across multiple business units to leadership for approval, building the plans and forecasts behind every ask.
- Ran **15+ A/B tests** across Paid Search and Paid Social, using statistical testing to drive -25% CPA, the same experiment-to-decision loop this role would run on base-price changes before they scale broadly.

Customer Success Manager, Pixis (AI Platform) Jul 2021 - Sep 2022

- Carried **P&L and revenue targets** managing an 8-person team across 8 client accounts with per-client budgets of $15K-$90K/month.
- Used **Amplitude and Tableau** across 30+ campaigns to analyze user behavior and lift campaign ROAS 40%, the same data-to-decision loop a pricing model turns into a recommendation.

Senior Digital Marketing Analyst, GenY Medium Jan 2020 - Jun 2021

- Delivered **16x ROAS** for D2C e-commerce brands by rebuilding Google Merchant Center and Meta catalog feeds.

PROJECTS

Optimal Pricing Prediction Model

- Developed **R-based pricing optimization models** using linear regression to forecast demand elasticity and identify profit-maximizing price points across scenarios, the same elasticity-to-price logic a base-price roadmap runs every week.
